ZAYTOURA

EXTRA VIRGIN OLIVE OIL

HONEY BEAR

NATURAL EGYPTIAN HONEY

From Egyptian soil, to the world's table.

Larkspur Export is an Egyptian agricultural export house bringing together three specialist brands under one roof: **Deyafa** for premium dates, dried herbs and botanicals; **Zaytoura** for cold-pressed olive oil and specialty oils; and **Honey Bear** for natural Egyptian honey. From the Mediterranean groves of Matrouh to the palm oases of Siwa and the sun-rich fields of Upper Egypt, we work at origin — selecting, processing and packing at source to keep full control of quality and traceability.

Egypt's unique geography — the Nile Delta and Valley, desert oases and 3,000 hours of annual sunshine — produces some of the world's most intensely aromatic

herbs, the finest chamomile and hibiscus, and dates prized across every continent. Our role is to deliver that quality to international buyers with the consistency, documentation and food-safety discipline that modern retail and wholesale markets demand.

We serve importers, distributors, food manufacturers and retail chains, and offer full **private-label programmes** across all three brands. Every product in this catalogue is offered in bulk for export — from mixed pallets to full container loads — and every shipment leaves Egypt with complete export documentation and lot-level traceability back to the farm.

DEYAFA
DATES & NATURAL FOODS OF EGYPT

Deyafa ضيفه

DATES · DRIED HERBS · BOTANICALS

Named for the Arabic tradition of hospitality, Deyafa is our flagship brand for the fruits of the Egyptian oasis and field: premium table dates from Siwa and Bahariya, and sun-dried herbs, seeds and flowers from the Delta and Upper Egypt. Offered in retail, food-service and bulk industrial formats.

ZAYTOURA

Zaytoura زيتورة

EXTRA VIRGIN OLIVE OIL

Pure Mediterranean essence. Zaytoura brings cold-pressed extra virgin olive oil from the coastal groves of Matrouh — harvested early, pressed within hours, and bottled at origin in dark glass to protect its fresh, peppery character.

HONEY BEAR

EST. 1997

Honey Bear

NATURAL EGYPTIAN HONEY

100% natural, raw-filtered Egyptian honey in the brand's signature bear bottle: delicate clover honey from the Delta's berseem fields, fragrant citrus-blossom honey from the orchard belts, and rare dark Sidr honey — plus traditional Egyptian sugarcane molasses.

Quality is a system, not an inspection.

O1

AT THE FARM

Contracted growers in defined regions; harvest timed to peak maturity; field-level lot identification from the first crate.

O2

INTAKE & SORTING

Raw material inspected against specification on arrival: moisture, purity, defects, colour and aroma. Non-conforming lots rejected at the gate.

O3

PROCESSING & PACKING

Cleaning, grading, cutting and packing under documented hygiene procedures with metal detection and final QC sampling on every lot.

O4

DOCUMENTATION & SHIPPING

Pre-shipment inspection, certificate of analysis, phytosanitary and health certificates, certificate of origin — container sealed and photo-documented.

STANDARDS OUR SPECIFICATIONS ARE WRITTEN AGAINST

Codex CXS 143-1985 (Dates)

Codex CXS 12-1981 (Honey)

EU Directive 2001/110/EC

IOC / EU 2568/91 (Olive Oil)

EU 2023/915 (Contaminants)

ISO 22000-aligned QMS

CERTIFICATIONS

Organic (EU / USDA-NOP), ISO 22000, HACCP and Global G.A.P.-certified supply available on request per product line and volume. Certificates of analysis from independent accredited laboratories accompany every export lot.

Buyers' own specifications and analysis panels are welcomed — we pack against customer spec sheets on request.

EXTRA VIRGIN OLIVE OIL

COLD-PRESSED · SINGLE ORIGIN · MATROUH

TRUSTED BY OUR PARTNERS

PURE MEDITERRANEAN ESSENCE

Extra Virgin Olive Oil

Olea europaea — cold-pressed, first extraction

750 ml dark glass — front & back — flagship retail format

Grown in the Mediterranean coastal groves of **Matrouh Governorate**, our olives are harvested early and cold-pressed within hours of picking. The result is a true extra virgin oil — green-gold, fresh and peppery, with the low acidity and clean sensory profile that defines the top grade of the International Olive Council classification.

PRODUCT SPECIFICATION	
Origin	Matrouh, Egypt — single origin
Category	Extra Virgin (IOC / EU Reg. 2568/91)
Extraction	Cold-pressed, first mechanical extraction ≤ 27 °C
Free acidity	≤ 0.8 g / 100 g (as oleic acid)
Peroxide value	≤ 20 meq O ₂ / kg
UV absorbency	K232 ≤ 2.50 · K270 ≤ 0.22 · ΔK ≤ 0.01
Sensory	Median defect = 0; median fruitiness > 0
Harvest	October – January
Shelf life	24 months in dark glass / tin, unopened
HS code	1509.20

PACKING OPTIONS

- 250 / 500 / 750 ml dark glass
- 1 L PET squeeze
- 3 L & 5 L tins
- 190 kg drums
- Flexitank bulk

RETAIL CARTON 12 × 750 ml (≈ 13 kg)	20-FT CONTAINER ≈ 1,050 cartons palletized*	STORAGE Cool, dark, below 25 °C	PRIVATE LABEL Available — all formats
--	---	------------------------------------	---

* Indicative palletized loading; exact count depends on pallet pattern and destination regulations.

TRUSTED BY OUR PARTNERS

RAW-FILTERED · NO ADDITIVES · CODEX & EU COMPLIANT

Clover Honey & Citrus Blossom Honey

Trifolium alexandrinum · Citrus spp. — monofloral honeys of the Nile Delta

Clover Honey

From the berseem (Egyptian clover) fields of the Nile Delta — the country's classic table honey. Light amber, delicately floral and smooth, with a fine, creamy crystallization. The everyday honey of the Egyptian household.

Citrus Blossom Honey

Gathered when the orange and mandarin orchards of the Delta and Ismailia flower in spring. Pale gold, slow to crystallize, with an unmistakable orange-blossom aroma — a premium single-origin varietal.

SPECIFICATION — CLOVER	
Floral source	Trifolium alexandrinum (berseem clover)
Region / season	Nile Delta · March – June
Colour	Light amber (Pfund ≈ 50 – 85 mm)
Moisture	≤ 20 % (typical 16 – 18.5 %)
HMF	≤ 40 mg / kg
Diastase	≥ 8 Schade units
Sucrose	≤ 5 g / 100 g
F + G (invert sugars)	≥ 60 g / 100 g

SPECIFICATION — CITRUS BLOSSOM	
Floral source	Citrus spp. (orange, mandarin)
Region / season	Delta & Ismailia citrus belt · March – April
Colour	Extra light to light amber
Moisture	≤ 20 % (typical 16 – 18.5 %)
HMF	≤ 40 mg / kg
Diastase	≥ 8 Schade units
Sucrose	≤ 10 g / 100 g (Codex citrus exception)
F + G (invert sugars)	≥ 60 g / 100 g

RETAIL

500 g bear bottle ·
250 g / 1 kg jars

CARTON

12 × 500 g

BULK

25 kg pails · 290 kg
drums

HS CODE

0409.00

All honeys are offered in bulk for export — 25 kg pails and 290 kg drums — alongside retail formats. 100 % pure natural honey: raw-filtered, never blended, no added sugars. Compliant with Codex CXS 12-1981 and EU Directive 2001/110/EC; single-origin traceability documentation supplied in line with EU Directive 2024/1438 origin-labelling requirements.

Sidr Mountain Honey

Ziziphus spina-christi — the prized dark honey of the sidr tree

800 g clip-lock glass jar with dipper

Harvested in autumn when the ancient sidr (Christ's-thorn jujube) trees flower in Egypt's wadis and mountain margins. Sidr is among the most valued honeys in the world: deep amber, buttery and caramel-toned, naturally low in moisture and exceptionally slow to crystallize thanks to its high fructose-to-glucose ratio. Egyptian sidr honeys are distinguished by high natural enzyme activity — evidence of gentle, unheated handling.

PRODUCT SPECIFICATION	
Floral source	Ziziphus spina-christi (sidr)
Region / season	Upper Egypt wadis & Sinai margins · Oct – Nov
Colour	Dark amber
Moisture	Typically 14 – 17 % (max 20 %)
HMF	≤ 40 mg / kg
Diastase	≥ 8 Schade units — typically well above
F / G ratio	> 1.0 — very slow crystallization
Character	Rich, buttery, molasses-caramel notes
Shelf life	24 months, ambient, sealed
HS code	0409.00

POSITIONING

A limited-harvest premium varietal for fine-food retail, gifting and the Gulf market, where sidr honey commands a strong price premium. Lot-specific laboratory analysis accompanies every batch.

RETAIL

800 g clip-lock jar ·
250 g mini

Sugarcane Molasses عسل أسود

Asal Eswed — slow-boiled Egyptian cane treacle

500 g squeeze bottle

Egypt's beloved traditional sweetener. Sugarcane from **Upper Egypt — Minya, Sohag and Aswan** — is pressed and the fresh juice slow-boiled in the time-honoured way into a glossy, deep-brown treacle: intensely rich, bittersweet and mineral-toned. Eaten with tahina and bread across Egypt, and increasingly sought abroad as a natural, unrefined cane sweetener for ethnic retail and food manufacturing.

PRODUCT SPECIFICATION	
Product	Pure sugarcane molasses (cane treacle)
Ingredients	100 % sugarcane juice, slow-boiled — nothing added
Region / season	Upper Egypt · pressing Dec – June
Appearance	Thick, glossy, dark brown syrup
Total soluble solids	Typically ≈ 75 – 80 °Brix (per-lot COA)
Flavour	Rich bittersweet cane, light smoke, mineral finish
Shelf life	24 months, ambient, sealed
HS code	1703.10 *

APPLICATIONS

- Table syrup & tahina blends
- Bakery & confectionery
- Sauces & marinades
- Ethnic & specialty retail

Labelled and sold as **sugarcane molasses** — not honey. * Tariff heading confirmed per destination-market customs ruling.

DEYAFa

DATES & NATURAL FOODS OF EGYPT

PREMIUM EGYPTIAN DATES

DRIED HERBS & LEAVES

SEEDS & SPICES

DRIED FLOWERS

THE GENEROSITY OF THE EGYPTIAN OASIS

Egyptian Dates — Classes & Grading

Egypt is the world's largest producer of dates. Deyafa selects from the historic palm regions — Siwa, Bahariya and the New Valley oases and the Nile Valley — and packs to Codex CXS 143-1985 with metal detection and full lot traceability. Trade classification follows moisture at packing:

CLASS	MOISTURE	CHARACTER	DEYAFa LINES
Soft	> 30 %*	Tender flesh, refrigerated logistics	Medjool
Semi-dry	20 – 30 %	Supple, ambient-stable, long shelf life	Siwi · Shahdi · Wadi
Dry	< 20 %	Firm, hard flesh; bulk & processing	On request (Aswan varieties)

* Premium Medjool is packed at 23 – 28 % moisture. Codex CXS 143-1985 caps moisture at 26 % for cane-sugar varieties and 30 % for invert-sugar varieties.

MEDJOOl SIZE GRADING (TYPICAL EXPORT CONVENTION)

GRADE	WEIGHT PER FRUIT	TYPICAL USE
Super Jumbo	> 25 g	Premium gifting & fine retail
Jumbo	22 – 25 g	Premium retail
Large	18 – 21 g	Mainstream retail
Medium	15 – 17 g	Retail & food service
Small	10 – 14 g	Food service & industry

EVERY DEYAFa DATE LOT

- ✓ Hand-sorted; blemished fruit removed to Codex tolerances
 - ✓ Steam-treated / fumigated per destination requirements
 - ✓ Cold-chain options for soft varieties
- ✓ Metal-detected and QC-sampled at packing
 - ✓ Pitted or unpitted; retail & bulk formats
 - ✓ COA, phytosanitary & origin certificates per shipment

Medjool Dates

Phoenix dactylifera cv. Medjool — the king of dates

Deyafa Medjool — 5 kg export carton

Grown in Egypt's oasis belt — Siwa, Bahariya and Toshka — where desert heat and mineral-rich groundwater produce Medjool of exceptional size and sweetness. Soft, meaty flesh with deep caramel notes and a fine skin. Harvested September–October, graded by hand, and shipped under cold chain to preserve its just-picked texture year-round.

PRODUCT SPECIFICATION	
Variety / class	Medjool — soft date
Region	Siwa · Bahariya · Toshka
Harvest	September – October
Grades	Super Jumbo · Jumbo · Large · Medium · Small
Moisture	23 – 28 % (premium table grade)
Style	Whole, unpitted (pitted on request)
Skin	Premium: ≤ 5 % separation · Choice: ≤ 20 %
Treatment	Washed, dried, metal-detected; no additives
Storage / shelf life	0 – 5 °C: 12 months · -18 °C: 24 months
HS code	0804.10

PACKING OPTIONS

- 5 kg bulk carton
- 1 kg / 500 g retail box
- 250 g premium gift pack

* Indicative palletized loading — confirmed per order and pallet pattern.

Siwi Dates (Saidy)

Phoenix dactylifera cv. Siwi — Egypt's classic semi-dry date

Deyafa Siwi — amber, glossy, semi-dry

The signature date of the Siwa Oasis and the New Valley — known across Egypt as Siwi or Saidy. Golden-amber to light brown with a supple, chewy flesh and honeyed flavour, it is Egypt's most important commercial variety: ambient-stable, versatile and excellent value. The workhorse of retail packs, food service and date processing alike.

PRODUCT SPECIFICATION	
Variety / class	Siwi (syn. Saidy) — semi-dry date
Region	Siwa Oasis · New Valley (Kharga, Dakhla)
Harvest	September – November
Moisture	16 – 21 % at packing
Total sugars	≥ 60 % (naturally invert-sugar rich)
Style	Whole unpitted · pitted · pressed blocks · date paste
Sizing	Per Codex count classes, or customer spec
Treatment	Cleaned, sorted, steam-treated, metal-detected
Storage / shelf life	Ambient cool & dry: 12 – 18 months
HS code	0804.10

PACKING OPTIONS

- 10 kg bulk carton
- 5 kg carton
- 1 kg / 500 g retail
- Pressed 10 kg blocks
- Date paste 12.5 kg

Shahdi Dates & Wadi Dates

Deyafa select semi-dry lines from the Bahariya Oasis

Deyafa Shahdi

Our premium semi-dry table selection: large, glossy, deep-amber fruit with tender flesh and a rich toffee sweetness. Dry-cleaned without washing to preserve the natural skin bloom; hand-sorted; nothing added.

SPECIFICATION — SHAHDI	
Class	Semi-dry table date
Region / harvest	Bahariya Oasis · Sept – Oct
Moisture	18 – 24 % at packing
Style	Whole unpitted; pitted on request
Treatment	Dry-cleaned, hand-sorted, metal-detected
Shelf life	12 – 18 months ambient
Packing	5 kg carton · 1 kg / 500 g retail

Codex CXS 143–1985

PRIVATE LABEL

Available — all formats

Deyafa Wadi

A firmer, lower-moisture semi-dry date of smaller calibre, marked by a golden crown ring. Long ambient shelf life and consistent calibre make it the practical choice for food service, snacking mixes and processing.

SPECIFICATION — WADI	
Class	Semi-dry date, firm style
Region / harvest	Bahariya Oasis · Sept – Oct
Moisture	16 – 20 % at packing
Style	Whole unpitted; pitted / chopped on request
Treatment	Cleaned, sorted, metal-detected
Shelf life	18 months ambient
Packing	10 kg carton · retail packs · industrial
HS code	0804.10

Dried Herbs, Seeds & Flowers

Sun-grown in the Nile Delta,
Fayoum & Upper Egypt

Dried Mint
Mentha viridis

Delta-grown spearmint, dried gently to keep its cooling aroma and vivid green. The tea-glass staple of the Middle East and a workhorse culinary herb.

SPECIFICATION	
Region / harvest	Nile Delta & Fayoum · year-round (3–4 cuts)
Cuts	Whole leaf · cut & sifted · crushed · tea-bag cut · powder
Moisture	≤ 12 %
Purity	≥ 99 % · foreign matter ≤ 1 %
Colour / aroma	Natural green · strong, cooling, characteristic
Packing	10 / 20 / 25 kg PP bags or cartons
Load (20-ft)	≈ 5 – 7 t (indicative, cut-dependent)
Shelf life / HS	24 months · HS 1211.90

- Herbal tea
- Culinary blends
- Extracts

Dried Cumin
Cuminum cyminum

Upper Egyptian cumin — famously warm and penetrating, with high volatile-oil content. Machine-cleaned to 99 % purity for grinders and spice houses.

SPECIFICATION	
Region / harvest	Upper Egypt (Minya – Assiut) · March – April
Form	Whole seed · ground
Moisture	≤ 10 %
Purity	≥ 99 % machine-cleaned · admixture ≤ 1 %
Volatile oil	≥ 2.5 % (whole seed)
Packing	25 kg PP / paper bags · jute on request
Load (20-ft)	≈ 13 – 14 t palletized
Shelf life / HS	24 months · HS 0909.31 / 0909.32 (ground)

- Spice blends
- Grinding
- Seasonings

Dried Hibiscus

Hibiscus sabdariffa — karkadeh

From Aswan and Upper Egypt — long regarded as the world's finest hibiscus. Deep crimson calyces, boldly tart, with excellent colour release for teas and natural colourants.

SPECIFICATION

Region / harvest	Aswan & Upper Egypt · October – December
Cuts	Whole calyx · sliced/cut · tea-bag cut · powder
Moisture	≤ 12 %
Acidity (as citric)	Typically 13 – 20 % — bold, tart profile
Purity / colour	≥ 99 % · deep crimson, strong infusion colour
Packing	10 / 20 / 25 kg cartons or PP bags
Load (20-ft)	≈ 8 – 10 t (whole calyx, indicative)
Shelf life / HS	24 months · HS 1211.90

Herbal & iced teas

Natural colourant

Beverages

Dried Lemongrass

Cymbopogon citratus

Cut and sifted to keep its bright citrus zest and green-golden tone. Rich in essential oil — a clean, zesty lemon profile for teas and culinary blends.

SPECIFICATION

Region / harvest	Fayoum & Beni Suef · June – October cuts
Cuts	Cut & sifted 1 – 3 cm · tea-bag cut · powder
Moisture	≤ 11 %
Purity	≥ 99 % · foreign matter ≤ 1 %
Colour / aroma	Green to golden · strong citrus-lemon
Packing	10 / 20 kg cartons or PP bags
Load (20-ft)	≈ 6 – 8 t (indicative, cut-dependent)
Shelf life / HS	24 months · HS 1211.90

Herbal tea

Culinary

Aromatic blends

Dried Thyme

Thymus vulgaris

Pungent, savoury Egyptian thyme with strong volatile-oil depth. Grey-green, cleanly rubbed or cut — the backbone of za'atar blends and Mediterranean seasonings.

SPECIFICATION

Region / harvest	North coast & Delta margins · May – September
Cuts	Whole · rubbed · cut & sifted · powder
Moisture	≤ 11 %
Volatile oil	≥ 1.0 %
Purity / colour	≥ 99 % · grey-green
Packing	10 / 20 / 25 kg cartons or PP bags
Load (20-ft)	≈ 7 – 9 t (indicative)
